**Work Description & Permit Notes:**

- Job Valuation: \$19,500.00 - Add a baby nursery to the front screen porch of the house - the front of the house has a full length covered screen porch with roof system and this is the proposed area to add the nursery so it will not affect the current setbacks. The nursery will be connected to an existing bedroom via French doors and have a separate entrance off the living room and will include two egress approved windows and a small closet. The current HVAC system is large enough to accommodate the additional square footage so a vent will be connected to the trunk line. Smoke detector will be added to the new room and wired into the current system. The exterior walls will be covered with plywood, house wrap and vinyl siding to match existing house. Batt insulation will be used in the walls and underpinning area which will then be covered in plywood to match current underpinning. Interior to be finished with sheetrock, LVP flooring, basic trim. All electrical codes will be met. No plumbing required.

**Work Description & Permit Notes:**

- Job Valuation: \$24,500.00 - Installation of foundation and engineered metal accessory building. As the grade of the property is uneven, there will be a need for a block wall foundation. I eventually plan to put in a pool and that will come on it's own permit, but wish to install the footer and block for accessory building and pool at the same time. This would tie both footers and walls together. Plan would be to dig and pour the footer, install block wall and backfill and install 4 inch concrete slab with proper anchor bolts as per engineered instructions. Once foundation is complete, install the engineered metal building as per manufacture detailed instructions provided.

Final inspections are required on all permits. To schedule an inspection, visit the Community Development Permit Portal at [www.OrangeBeachAL.gov/CDDportal](http://www.OrangeBeachAL.gov/CDDportal). In lieu of residential mechanical inspections, the qualifying agent may submit a notarized Mechanical Inspection Affidavit. The Mechanical Inspection Affidavit is available on the Permit Portal or at the following link: [www.CitizenServe.com/Documents/287/CDD-Form-InspectionAffidavitMechanical.pdf](http://www.CitizenServe.com/Documents/287/CDD-Form-InspectionAffidavitMechanical.pdf).

This permit becomes null and void if work or construction authorized is not commenced within six months or if construction or work is suspended or abandoned for a period of six months at a time after work is commenced. The applicant hereby agrees that all work will comply with the applicable provisions of the 2018 International Mechanical Code, the 2015 International Energy Conservation Code/Alabama Residential Energy Code, and the 2018 International Residential Code; all applicable state and local regulations; and in accordance with the approved plans. The applicant further attests that the information in the application is true and correct. All provisions of laws and ordinances governing this type of work shall be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.

**Work Description & Permit Notes**

Job Valuation: \$\$24,500.00

Notes: Installation of foundation and engineered metal accessory building. As the grade of the property is uneven, there will be a need for a block wall foundation. I eventually plan to put in a pool and that will come on it's own permit, but wish to install the footer and block for accessory building and pool at the same time. This would tie both footers and walls together. Plan would be to dig and pour the footer, install block wall and backfill and install 4 inch concrete slab with proper anchor bolts as per engineered instructions. Once foundation is complete, install the engineered metal building as per manufacture detailed instructions provided.
