Work Description & Permit Notes

PERMIT EXTENSION GRANTED 02/02/2023.

Build wooden deck to hold hot tub on 1 side with seating on other. Metal roof. Shower included with screening added later.

UPDATE 11/23/2021: This is a large lot and the Deck will be 4 feet from the house and 15 feet from the property line at the rear and 25 feet at the side.(this is a guess as no survey available). I have recently dug a big trench to move the pooling water to the ditch at the side and I will address any similar problems that arise. If you insist on gutters just let me know.

I hope my rough drawings show the roof detail but anything else you need please let me know.

Thanks for the advice on Electrical. I was planning to use an instant heater but instead I will use a 19 gallon water heater, this is rated at 1500W so this plus the 50A for the Tub and 20A for a couple of outlets and fans should work.

Permit Extension Approved 01/23/2023.
